

AN ELEGANT FEATURE TO STAND OUT FROM THE REST

CASE STUDY

Date : July 2015

Project : Window Feature Screens

Customer : GJ Gardner

Site : Superlot 24 Hobsonville Point

THE CHALLENGE

▼
Incorporate an architecturally pleasing feature to modernize new home builds.

GJ Gardner put the challenge to Manson Engineering to build and install lightweight window screens for their new development at Hobsonville Point.

THE SOLUTION

▼
Lightweight powder coated aluminium window screens.

Manson has been involved with the production and installation of a number of different window screen projects for GJ Gardner. They not only create privacy but also make the home look very modern. The screens can be produced in a variety of colours and the designs are virtually limitless. These lightweight screens offer a unique look to any building or unit and really add to the property.
